

## DPF Cleaner DCS-16

**The power to clean !**

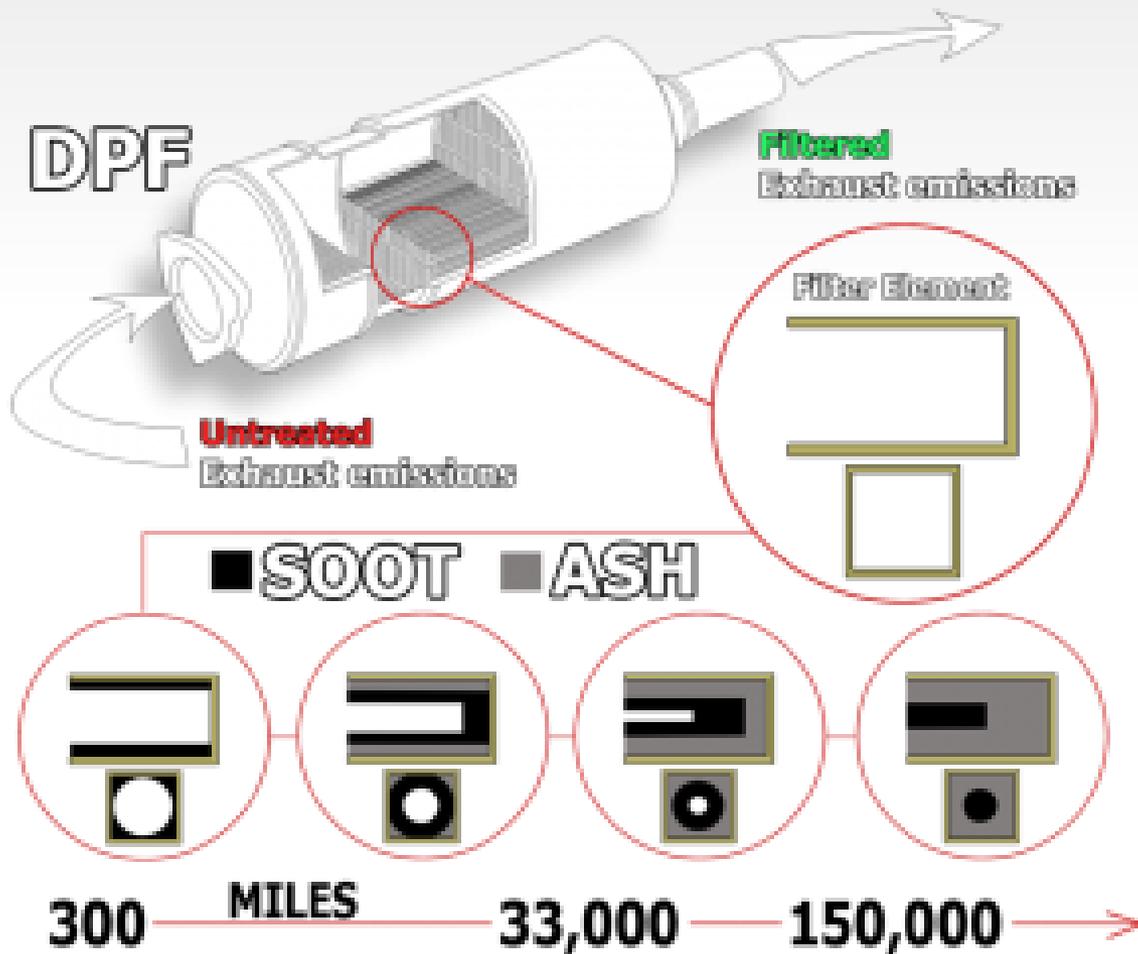

# DPF Cleaner DCS-16

**The power to clean !**

# Why should you use our DPF Cleaner?

# Why should you use our DPF Cleaner?

A diesel particulate filter (DPF) is designed to capture the excess soot particles from a diesel exhaust.

The DPF will attempt to clean itself under certain conditions by 'regenerating' itself when it reaches a certain temperature, usually achieved on longer journeys.

Anyway, sooner or later, the DPF will **clog up** and **be unable to regenerate and clear the soot.**

This will lead to:

- **more emissions**
- **reduction in power**
- **increase in fuel consumption**
- **back pressure from the DPF**

- **catastrophic damage to the engine**

And finally:

- **stop of the engine from running or even starting**

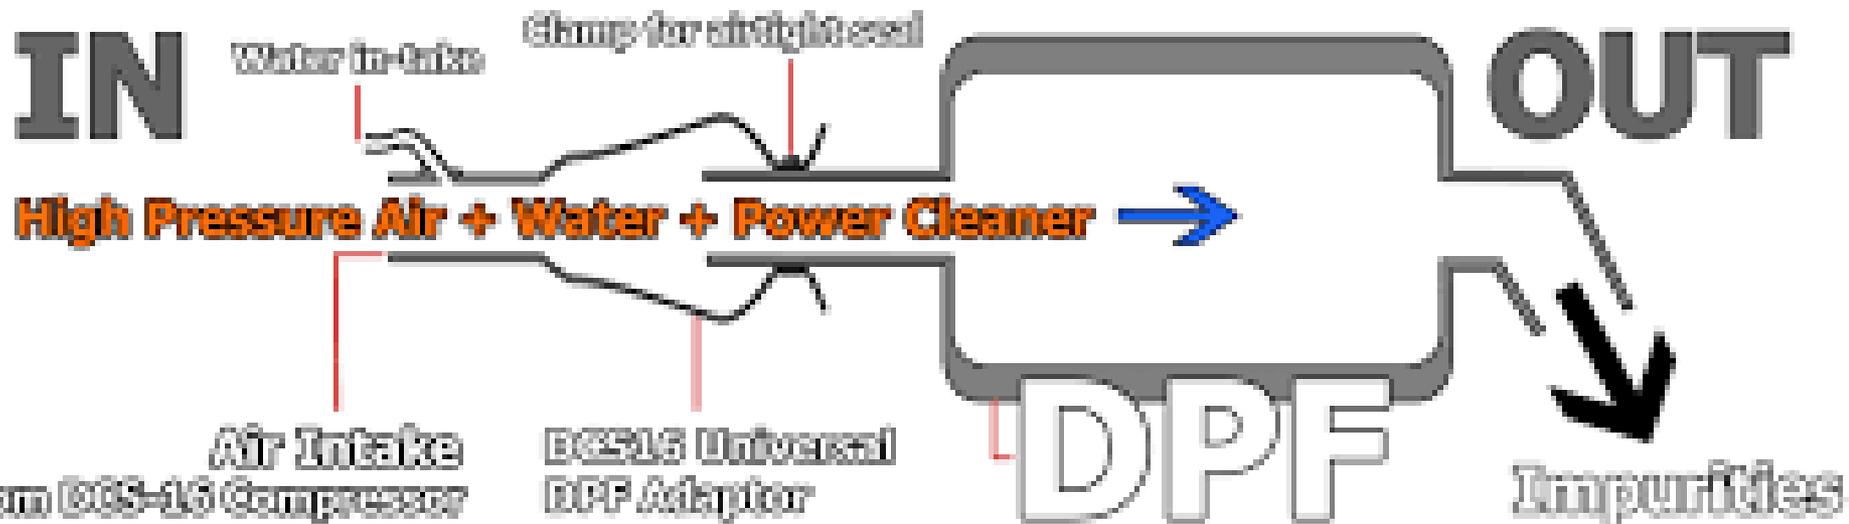

Therefore it's far better  
to CLEAN it up!!!

# How does it work?

## DCS-16 PRESSURISED CLEANING SYSTEM

## How does it work?

1. Seal the DPF filter with a bung
2. Pour our DPF Power Cleaner into the DPF and let it rest for 20 min.

## How does it work?

3. The cleaner reacts with the blockage in the DPF lifting the residue of soot and ash from every surface of the filter elements
4. Remove the bung and drain the dirty fluid

Now you are ready to work  
with our DCS-16!

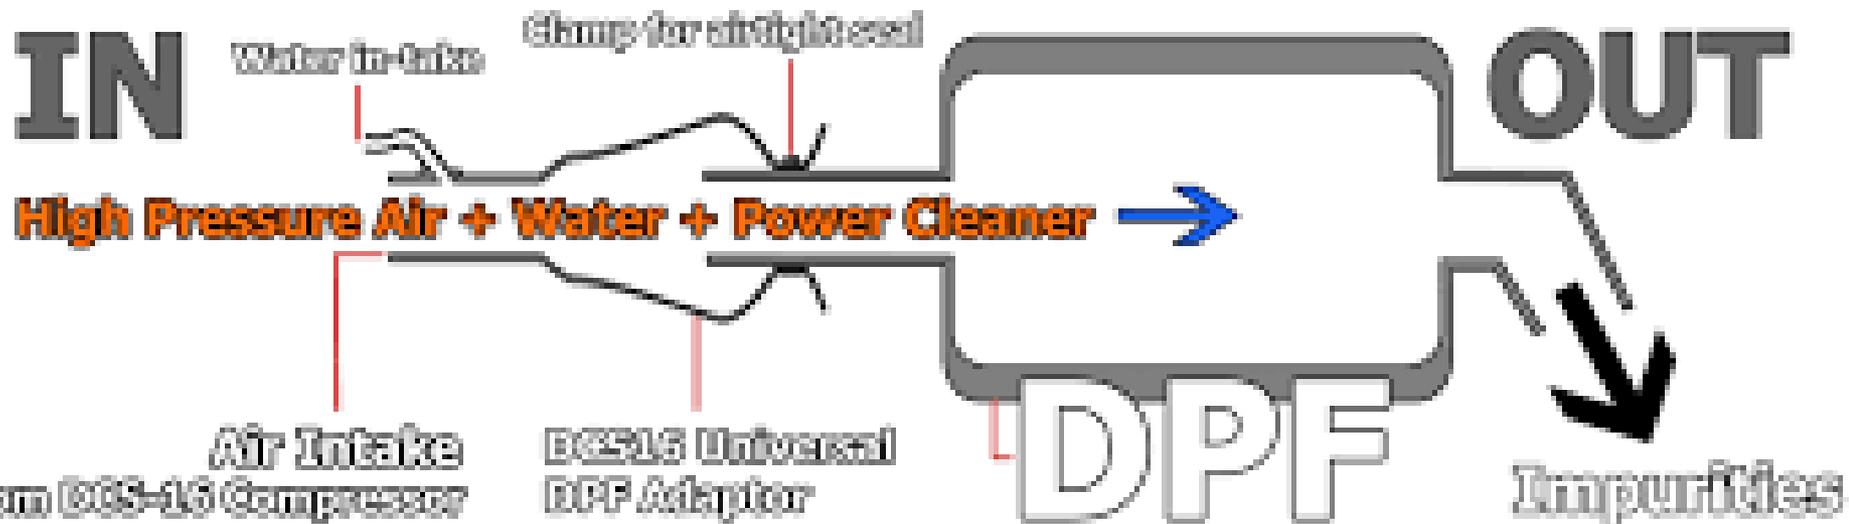

5. The DPF is then connected to the DCS-16 cleaning system to power wash the cleaner and all of the impurities out of the filter

**The power to clean !**

# Technical features

Technical Parameters	
Description	DPF Restoration System
Model No.	DCS - I6
Driving System	Air : 4 ~ 6 Bar Power Supply
Cleaning Detergent	Chemical / Water / Air
Operation Method	Timer Relay Solenoid Valve Operation
Display Mode	Low Pressure Gauge
Air Receiver Tank	15L
Dimension	400(W) x 900(L) x 1120(H)
Net Weight	60Kg

Not convinced yet?  
Take a look at our video:

[https://www.youtube.com/watch?time\\_continue=41&v=WKUsNiR9QLI](https://www.youtube.com/watch?time_continue=41&v=WKUsNiR9QLI)

And at our beautiful Website:

<http://carbon-clean.co.uk/>

DPF can be cleaned in auto or manual mode

Air pressure can be controlled and adjusted

DPF can be easily installed using  
the auxiliary holder

DCS-16 uses harmless chemicals for safe working  
conditions

DCS-16 reduces ash  
and improves environmental impact:

- Less emissions
- Your DPF lives longer
- Your engine and car live longer

With its DPF cleaner DCS-16

KEEPS THE WORLD CLEAN

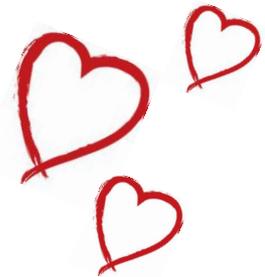

DCS-16 + CC-16  
DPF Cleaner + Engine Cleaner

THE PERFECT MATCH!
